

TextToPDF

This application will create a PDF document from a text file.

Usage: `java -jar pdfbox-app-x.y.z.jar TextToPDF [OPTIONS] <outputfile>
<textfile>`

Command-Line Parameter	Default	Description
-standardFont	Helvetica	The font to use for the text. Either this or -ttf should be specified but not both.
-ttf		The TTF font to use for the text. Either this or -standardFont should be specified but not both.
-fontSize	10	The size of the font to use.
